---

Feeling 416DI with lifting keel. This amazing 2002 model design is now for sale in Newport.

Very rare and sought after Oceana 1 has been sailed short-handed by Canadian husband and wife team across the Pacific. Fully equipped for long term live aboard extensive cruising.

Drawing just 800mm with her twin rudders and swing keel up, this design is able to explore the most inaccessible anchorages and locations.

You can even let her sit on the sand as tide retreats.

If you have a shallow jetty or mooring or just wanting to cross bars and shallows no fuss, this is the boat.

She has all the manoeuvrability and ease of handling and upkeep of a monohull, yet can anchor inside often where even multihulls cannot go.

Her lead ballasted bilge gives her strong righting moment with or without board down. In fact the owners sailed most of the Pacific fast and safely with board up.

Similar in concept to the very popular aluminium Ovni, but solid glass layup and mass production makes this a very desirable option.

Look deeper into this boat and you will notice a high quality of finish, beautiful light interior with good visibility.

Well set up galley, dinette, and generous bathroom complete what is truly a special design.

Her very proud owners have spared no expense on safety and electronics.

So be quick to inspect this one. Oceana I will not last long.

---

## Features

Designer	Philippe Harle & Alain Mortain
Builder	Kirie
Water (Potable) Capacity (l)	400
Hull Construction Material	Fibreglass
Hull Type	Mono
Deck Construction Material	Fibreglass
Country Origin	France
Length (feet)	41.5
Length (m)	12.5
Length Waterline (m)	9.81
Draft (m)	0.8 - 2.2
Keel/Ballast	2300kg ballast.
Displacement	8900 kg
Engine Notes	Engine serviced March 2018
