## Description

Immaculately presented 1986 Fisher 32 MKII now for sale.

This vessel is built to Lloyds specification by Malcolm Barlow in Australia, fabulously designed for the fierce weather of the North sea.

The design emphasises a well rounded sailing vessel with equal motoring ability, spacious layout and dual steering stations.

This vessel has had no expense spared, with the following recent additions in 2017-

New running rigging and ropes on mast with certification certificate for insurance (February 2017)

New mast lights and Raymarine wind cable.

New stainless fuel and water tanks.

New hot water tank and hoses.

Upgraded switch panels and electrics.

New 240V battery charger.

New solar regulator with battery monitoring.

Recently serviced BMW engine with 3 fuel filters and new hoses to ensure safety at sea and longevity of engine.

New Lowrance chartplotter.

New VHF and antenna.

The vessel is equipped with a furling rig which is well maintained, and recently serviced with the emphasis on sailing single handed with ease. The 2002 model 45HP BMW diesel engine is in immaculate condition and had around 1800hrs use.

The design is deceptively roomy as the spacious, and protected pilot house can be opened up to the cockpit all on the same level making it fantastic for entertaining.

Below decks the MKII version features a huge private aft cabin, while up the bow it has a very generous double V berth. The Dinette also converts into a double bunk.

The layout of the galley is simple and usable, with good cupboard space and a metho stove and grill.

The vessel also has a separate marine head and shower area with plenty of room, and a separate shower in the cockpit for those warmer days.

---

There were only about 20 Fisher 32's ever built, and this would have to be one of the best around. Don't miss out on this fantastic boat.
