Condition	Used	State	New South Wales
Suburb	NEWPORT	Engine Make	

Description

2007 Four Winns H310 now for sale with DBY Boat Sales.

The Four Winns H310 is actually one of the biggest bowriders on the market. This 2007 model has only had one fastidious owner since commissioning with almost every option fitted at the time by the Four Winns dealer. It has been meticulously maintained to the highest of standards whilst being on a marina berth under full covers.

Any boatie would applaud the design of this big bowrider with its big open space where family and friends can be together. Clever design features such as a single expanse of flat floor with no stairs to trip over. Loads of space to stretch out on comfortable lounge seating and when they reach the anchorage, everyone loves a huge swim platform to easily access the water for a swim or to sit and hold a drink whilst dangling your feet or casting a line.

The lines of the H310 are sleek and racy, and yet it is still a big boat. The hull weighs approximately 4,000 kg's and is trailerable by the right vehicle if required.

The twin Volvo V8's with duo props were opted to have a Neutra salt engine management system installed and with around 360 hrs on the meters, they present like new. Serviced last in February 2020. 50mph top speed at 5,000 rpm will easily handle a skier or wakeboarder and there is a dedicated ski pole that stows under the aft seating when not in use.

Handling is effortless. The boat responds instantly to the helm, turns sharply without protest and, in spite of its big size, feels nimble and easy-to-manage at all speeds.

Plus the Side Power powerful bowthruster gives greater manouverability in a marina.

One of the interior highlights is the double-wide helm seat with an impressive leather steering wheel, multifunction instrumentation along with the Garmin navigation unit mounted in the centre, means that monitoring all functions on this boat is very simple.

Four Winns factory fitted snap-in carpets which actually stays cooler in the sun, feels soft on your feet and can be removed for cleaning or storage.

Overhead, the boat has the optional full Camper canvas allowing an owner to enclose the boat completely for sleeping aboard. It's also great to have some shade when you're spending the day cruising, especially to protect small children from sunburn.

You can easily stay overnight. On the starboard side underneath the helm area is quite a spacious sitting height head. It's finished bright and white with an opening porthole for ventilation, a side door, storage, sink in a vanity and a hand-held shower fixture as well. It's not like home, but it's great for a bowrider!

Opposite to port is an enclosed and lockable cabin. This also has an opening porthole plus a screened sliding window into the companionway. It's snug, but you can spend the night behind closed doors and it's perfect for a sleepy child who wants to get out of the sun. A couple of little folks could also sit there to play games in a completely safe enclosure.

The cabin is also equipped with a TV/DVD player and remote control.

At the stern, there is a large pullout boarding ladder for swimming and a hand-held shower on the transom. A remote for the stereo is convenient and the 240v shore power connections are there as well. The cables store under the aft seat cushions.

These cushions are really clever. They can make up rearward facing seats, fold flat for a huge expanse of tanning bed or be tilted up like lounge seats. The transom walk-through helps to make the whole swim platform area, part of the living space.

For engine access, the entire back seat is on an electric lift, opening up the entire engine bay from the top for easy service to the Volvo V8's, batteries and bilge pump.

The interior can be set up as individual seats or filled in to make a full horseshoe-shaped conversation pit. A clever feature is that the cockpit table mounts not in the center of the floor, but with a side bracket to keep the foot area clear, it can also be moved to different locations on board or stored when it's not required.

There's lots of storage under all of the seats, stainless-steel handholds are conveniently located and on the starboard side behind the helm seat is a refreshment area.

There is a Waeco 12v fridge underneath the sink area. There's a hand rail/fiddle on the counter edge, a small sink with pressurised water, rubbish locker and storage.

Last but by no means least is the bow area. This is a huge space and probably where you will always find someone enjoying the unrestricted panoramic views. Not only is there plenty of seating for four or five people in the bow area, but with the filler cushion, it is like an adult playpen with sturdy recessed handrails all the way around. At the bow is a large anchor locker with an electric windlass for effortless anchoring.

We believe that this boat has everything you could possibly ask for in a big bowrider and handling that is as easy as a runabout, a high level of performance and all-day accommodation for up to 12 people.

This boat could be yours this summer.

Features

Designer	Four Winns
Builder	Four Winns
Water (Potable) Capacity (l)	76
Hull Construction Material	GRP
Hull Type	Mono
Deck Construction Material	GRP
Country Origin	USA
Length (feet)	31'6
Length (m)	9.61
Beam/Width (feet)	9ft 2 inch
Beam/Width (m)	2.8
