2003 Regal Commodore 2665 now for sale exclusively with DBY Boat Sales.

Regal power boats are amongst the finest built craft to have come from USA. This 2003 model Regal Commodore 2665 sports cruiser has been owned by the current owner for over 10 years and was completely refurbished with new engine in 2017 at a cost of over \$30,000.

The brand new Mercruiser 383 ci (6.3 litre) was installed in 2017 and has done a very low 100 hours since then. The gauge cluster is very nice-looking incorporated into the dash area so that the helmsmen can monitor everything very easily. Fuel, oil pressure, temp, trim, voltage and depth.

Carpets have snaps throughout the outside areas, Sunbrellatoastcanvas including the full camping enclosure with roll up breeze away sections as well as clears to all sides and the rear, sound system with 4 speakers and volume control from the rear swim deck.

A Garmin GPS plotter is mounted onto the cockpit dash.

There is an electric 2-way anchor winch controlled from the helm and a VHF radio with microphone controls. A spotlight mounted at the front just behind the anchor. There is nothing to spend on this well-maintained family sportscruiser.

There is a queen size mattress under the cockpit floor section is and very roomy for a 27ft power boat. It has an opening portlight window with excellent ventilation.

The V berth is comfortable roomy with good lighting and 2 portlight window and a large centre hatch giving great natural light.

Above the V berth has a sun deck with mattress to work on your suntan and has cup holders for the refreshments.

Behind the cockpit controls there is another 2 lounges forming a great booth style with a centre table that can also convert to a double berth

The swim platform is amazing. There is a large swim platform that has had an extension so that the transom is ideal to swim and relax, a clever concealed stainless-steel swim ladder is retracted underneath.

The galley features a granite-style countertop with built-in stove, moulded sink, refrigerator, and lots of storage. A full stand-up head compartment includes a vanity, storage and shower, additional single sink portside in the cockpit area. Generator is present but is not connected.

On a recent delivery trip from Gosford to Pittwater, the engine performed flawlessly as did the entire boat. Adjusting the trim tabs had the boat planing and super stable at 20 knots with an estimated fuel burn of around 20-25 litres per hour. This is a very impressive 27 ft sports cruiser. This boat is in good condition and is ready for summer fun immediately.

Features

Hull Construction Material Fibreglass

Country Origin USA
